

# FAIRWAY woods

Madeleine Winnett braved the winter chill to test the latest fairway woods – so take your pick ahead of the new season

BEST ON TEST

#### MD Golf Superstrong EQL

- Shallower clubface and more compact head shape make this the ideal fairway wood from the tee or the fairway
- Employs the same tungsten weight system that is available in the driver

SRP: £59

**LG verdict:** This probably had the stiffest shaft, which is one reason why I enjoyed hitting it the most. It was superb both off the tee, and off the fairway – despite it having the lowest loft. I'm not sure vivid pink/purple are my choice of colours, but it looks striking. Excellent club, stunning value.
