

BEST FOR SLICERS  
NATIONAL CLUB  
**GOLFER**

“One of the longest square drivers I have hit to date.”

Another cracking driver by MD Golf and one that just pips the rest to the value driver title! Although this is a square driver it has clean and curvy lines and looks to be a far more expensive club than its price suggests. However, where this driver really stands out is in performance; not only was it the longest of the twelve models for our test pro but our amateurs noticed the extra power too; terrific accuracy, forgiveness and consistency were added to the mix.

**Pro Verdict:** The longest driver for me in this category and a value model with quality parts. This driver felt like a top class club.

**Tester Comments:** “This club has soul! Feels fantastic with the perfect face design and depth”... “Nice penetrating shots”... “Square head with great distance and trajectory”... “Quality club that’s quite explosive”.
