

NEW YEAR GEAR

If you're planning to treat yourself to some new kit, check these beauties first!

MD Golf Superstrong Combo sets

These new clubs are easy to hit and easy on the wallet

MD Golf's brand new Superstrong combo set for 2009 replaces the hard-to-hit long irons in the set with the brand's latest hybrid clubs. The new irons have maximum perimeter weighting with a wider sole and top line for the ultimate in playability.

Each set combines a 21" and 24" Superstrong hybrid club with irons from 6 to SW. These are some of the best game-improvement clubs on the market and TG highly recommends them.
